January 27th, 2021

Dear Panther Family,

Great news! At Monday night's School Board meeting, the board approved the asynchronous day waiver. This waiver was submitted and approved by TEA. **We have converted two instructional days in our calendar (March 5th and April 30th) to district-wide asynchronous days for our students with this waiver.** An asynchronous learning environment is a learning environment that does not require participants, teachers, and students to be online at the same time. Asynchronous learning will occur at a time and place of the student's choosing. This change aims to provide additional planning and collaboration time for our teachers to help enhance all students' success. Teachers will develop learning experiences/activities for students to complete on these two days. Principals will communicate campus-specific information and expectations before the scheduled asynchronous days.

We hope this advanced notice of the calendar change will help make your scheduling needs easier. Your support with these two additional days of planning will help our teachers continue the high expectation of learning in our new environments of in-person and remote learning.

Thank you for your understanding and flexibility as we work together in these challenging times.
